Q3 Total Revenue Increased 55% Year over Year to \$80.5 million Q3 Gross Merchandise Value Increased 48% Year over Year to \$252.8 million

SAN FRANCISCO, Nov. 04, 2019 -- The RealReal (Nasdaq: REAL)--the world's largest online marketplace for authenticated, consigned luxury goods--today reported financial results for its third quarter ended Sept. 30, 2019.

Third Quarter Financial Highlights

- Gross Merchandise Volume (GMV) increased \$81.8 million to \$252.8 million, up 48% year over year.
 Total Revenue increased \$28.7 million to \$80.5 million, up 55% year over year.
 Consignment and Service Revenue increased \$24.0 million to \$69.8 million, up 53% year over year.
- Direct Revenue increased \$4.6 million to \$10.7 million. up 75% year over year
- Direct Revenue increased \$4.6 million to \$10.7 million, up 75% year over year. Gross Profit increased \$18.9 million to \$52.2 million, up 75% year over year. Adjusted EBITDA was \$(20.9) million or (26.0%) of total revenue. GAAP basic and diluted net loss per share was (\$0.30). Non-GAAP diluted net loss per share was (\$0.27). Free cash flow was (\$20.8) million.

- At the end of the third quarter, cash, cash equivalents and short-term investments totaled \$370.3 million.

*Q3 was a very strong quarter and speaks to the health and vibrancy of our marketplace. GMV and revenue growth accelerated, and we saw increased leverage in marketing as well as operations and technology," said Julie Wainwright, CEO and founder. "We are proud of the accelerating growth and operating leverage we demonstrated during the quarter, which we believe speaks to several unique aspects of our model including high buyer repeat rates and our flywheel where buyers become consignors and consignors become buyers."

Other Third Quarter Highlights

- Trailing 12 months active buyers reached 542,987, up 43% year over year.
 Orders reached 577,421, up 41% year over year.
 Average Order Value was \$438 compared to \$418 in the third quarter of 2018.

- Take Rate increased 40bps year over year to 36.8%
- GMV from repeat buyers was 81.8% compared to 82.9% in the third quarter of 2018.

Non-GAAP Financial Measures To supplement our unaudited and condensed financial statements presented in accordance with generally accepted accounting principles ("GAAP"), this earnings release and the accompanying tables and the related earnings conference call contain certain non-GAAP financial measures, including Adjusted EBITDA, Adjusted EBITDA as a percentage of total net revenue ("Adjusted EBITDA Margin"), free cash flow and non-GAAP net loss and diluted net loss per share. We have provided a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures in this earnings release.

We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors should also note that non-GAAP financial measures we use may not be the same non-GAAP financial measures, and may not be calculated in the same manner, as that of other companies, including other companies in our industry.

Adjusted EBITDA is a key performance measure that our management uses to assess our operating performance. Because Adjusted EBITDA facilitates internal comparisons of our historical operating performance on a more consistent basis, we use this measure as an overall assessment of our performance, to evaluate the effectiveness of our business strategies and for business planning purposes. Adjusted EBITDA may not be comparable to similarly titled metrics of other companies.

We calculate Adjusted EBITDA as net loss before net interest expense, income tax provision, depreciation and amorization, and remeasurement of preferred stock warrant liability included in other expense, further adjusted to exclude stock-based compensation, and certain one-time expenses. Adjusted EBITDA has certain limitations as the measure excludes the impact of certain expenses that are included in our statements of operations that are necessary to run our business and should not be considered as an alternative to net loss or any other measure of limancial performance calculated and presented in accordance with GAAP.

In particular, the exclusion of certain expenses in calculating Adjusted EBITDA and Adjusted EBITDA Margin facilitates operating performance comparisons on a period-to-period basis and, in the case of exclusion of the impact of equity-based compensation and related taxes, excludes an item that we do not consider to be indicative of our core operating performance. Investors and othat equity-based compensation with a sagnificant recurring expenses in our business and an important part of the compensation provided to our employees. Accordingly, we believe that Adjusted EBITDA and Adjusted eXPL and the compensation provided to our employees. Accordingly, we believe that Adjusted EBITDA and Adjusted EDITDA adj

Free cash flow is a non-GAAP financial measure that is calculated as net cash (used in) provided by operating activities less net cash used to purchase property and equipment and capitalized proprietary software development costs. We believe free cash flow is an important indicator of our business performance, as it measures the amount of cash we generate. Accordingly, we believe that free cash flow is an important indicator of our business performance,

Non-GAAP diluted net loss per share is a non-GAAP financial measure that is calculated as GAAP net loss plus equity-based compensation expense and related taxes, (benefit from) provision for income taxes, and non-recurring items divided by weighted average shares. We believe that adding back equity-based compensation expense and related taxes, plane fit from) provision for income taxes, and non-recurring items divided by meighted average shares. We believe that adding back equity-based compensation expense and related taxes and leanefit from) provision for income taxes, and non-recurring items as adjustments to our GAAP diluted net loss, before calculating per share amounts for all periods presented provides a more meaningful comparison between our operating results from period to period.
